## Legend

**One control.  
Multiple applications.**

**IMAGINE** all the  
remote possibilities!  
One control.

Lincoln Coders Corporation has successfully incorporated wireless technology into the world of manufacturing by introducing the latest Lincoln Legend...the first wireless controlled Inkjet.

Lincoln Legend technology allows an operator to control an infinite number of printers from a single controller. This one control source now eliminates the need for multiple controllers, which has always contributed to an Inkjet's size and cost.

The Lincoln Legend is designed to be the most user friendly Inkjet at the most cost competitive price. More importantly, the Lincoln Legend is backed by the same great quality and unparalleled service customers have come to know and expect from Lincoln Coders.

**Ink Dispenser 4,54 lt.**

## Legend 5

### SPECIFICATIONS:

#### POWER REQUIREMENTS:

100 VAC to 240 VAC  
50 Hz-60 Hz

#### OPERATING POWER:

12 Volts (+/- 5%)

#### OPERATING SPEED:

Prints up to 200 ft/min

#### CHARACTER SIZES:

3/8", 1/2"

#### CHARACTER FONT:

5 x 5 dot matrix

#### SOFTWARE FEATURES:

Date, Time, Expiration Code,  
Work Shift Code, Box Count,  
Print Delay, Message  
Width, Valve Adjustment,  
Print Direction

#### HARDWARE FEATURES:

Wireless Controller  
High Speed Valves  
Backlit LCD Screen  
Paired Printing Mode

#### PAIRED PRINTING WITH 2 PRINTERS:

Control Print on 2 Sides of a Package  
from 1 Printer

#### MESSAGE LENGTH:

40 characters per line

#### MESSAGE MEMORY:

Combined 160 messages on  
Printer/Handheld

#### PRINT DIRECTION:

Forward and Reverse

#### PRINTER DIMENSIONS:

5.5"L x 5"W x 3.5"H

#### WEIGHT

3 lb
